Description

The MONTHLY show from your host TSY

My Theme-mixes try to highlight the vast spectrum and variety of different ideas within Psytrance. Features including structure, texture, tempo, mode, genre or feel will all be presented in future.
- Stay tuned ! -

Creating these themed mixes obviously takes a lot of time to research, collect, sort out and mix. I hope you enjoy them as much as I do making them!

Styles will only vary from Progressive, through Full-On and into Goa-Trance. (Since Alpha is doing such an amazing job in the Hitech, Forest and Dark-scene)
The Psychedelic Show will feature on the 2nd Saturday of every month.

COME THE PEOPLE, WHAT THEY NEED - GOOD MUSIC!

Background history:

- TSY spent around 15 years actively promoting the Psytrance scene in Namibia ever since 1998 when Trance was becoming popular in South Africa.

He organised underground and commercial events with groups such as Luna Shamanix, IceFire and Wackazoo.

He and some friends founded Geraas oppi Plaas in 2009. - A grass-roots initiative and party organization which has blossomed and grown into a successful Psytrance Event scene, which featured its first Earth-Dance this year.

In 2014 he moved to Vienna and has been pursuing his old passion of mixing Psy for the enjoyment of everyone listening, playing at some underground and private events.

Dancing is the purest form of expression - dance ! like a sound particle...

Peace - TSY
